# Learn About Crypto Industry

A cryptocurrency is a digital asset designed to work as a medium of exchange. It typically does not exist in physical form (like paper money) and is typically not issued by a central authority. Crypto currency works through a block chain, which serves as a public financial transaction database.

Bitcoin, first released as open-source software in 2009, is the first decentralized cryptocurrency. Since the release of bitcoin, over 6,000 altcoins (alternative variants of bitcoin, or other cryptocurrencies) have been created.

# Crypto Basket
